

Silver Lake Civic Association
 Membership Renewal/ Application
 2017

SLCA maintains the lake, dam and nature preserve that make the surrounding neighborhoods so special. Dues are used to build and maintain trails and bridges, manage woodlands, repair and maintain the dam, and keep the lake suitable for fishing and boating. Annually, we test the water in our lakes, inspect and repair the dam, and complete new capital projects. Your financial support is critical to the preservation of this neighborhood treasure.
